Samples free at Wight & Bro's drug store.

## TOO MUCH

Exercise is as bad as too little for the growing girl. It is very easy for her to overdo, and this is especially dangerous at that critical period of a young girl's life when she crosses the line of womanhood. It is not an uncommon thing to lay the foundation for years of after misery by neglect of necessary precautions at the first "change of life."

The use of Dr. Pierce's Favorite Prescription not only establishes regularity, but it gives health to the entire womanly organism. It is the best medicine for diseases peculiar to women because it cures the causes of disease completely and permanently.

"Favorite Prescription" contains no alcohol, neither opium, cocaine nor any other narcotic. It cannot disagree with the most delicate constitution.

"For a number of months I suffered with female trouble," writes Miss Agnes McGowan, of 122 Bank Street, Washington, D. C. "I tried various remedies, but none seemed to do me any permanent good. The doctors said it was the worst case of internal trouble they ever had. I decided to write to you for help. I received a very encouraging reply and commenced treatment at once. I had not used your 'Favorite Prescription' a week before I began to feel better, and, as I continued, my health gradually improved, and is improving every day."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Catarrh Cannot Be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

## MICE QUICK TO LEARN.

So Says a Maine Man Who Finds Them Interesting Pets.

Out on Forest avenue is a mouse fancier whose residence, lest he lose caste with his neighbors, is withheld. In a pen he has half a dozen or so ordinary field mice.

"They are the most sociable pets I ever had," he remarked, "and any one of them will rise to attention as he hears my step approach the pen. I have had these young ones about six months. They don't live long when cooped up, and they will come freely to my hand to eat or drink. Some of them are so tame that they will climb to my shoulder and display not the slightest alarm at being touched. They haven't acquired so much faith in all humanity, however, and have refused to trust any one else so far.

"While mice eat a great deal for an animal so small when food is abundant, they can exist for a surprising long time with next to nothing. Any one whose house has been invaded with mice and who had passed weary weeks when everything that possibly could serve as food was carefully under lock and key, finally calling to service an active ferret, will appreciate this fact. He is a mighty aggressive and tireless forager after food, not hesitating at walls or similar obstructions, through which he patiently gnaws a path. As a test of persistence in this line I hung a basket of food from the ceiling by a rope and after a week's fast placed a mouse at a hole in the ceiling above the basket. He descended some eight feet or more on a slender cord and safely reached his haven, later climbing up again.

"All of my mice I have taken from nests about the premises and notice that they invariably seek shelter below or behind something, never in so exposed a locality as almost any other animal would select. For a nest paper, cloth or any soft material seems to satisfy, and the exceeding fineness with which it is chopped suggests some mighty artistic work with their teeth."

A VERY PARTICULAR BIRD.

If the Bathing Dish Didn't Suit Him, He Went Unwashed.

"Birds have as much character as human beings," said a specialist on birds. "Some are the most arrogant little aristocrats, while others are regular little plebeians. I had a little fellow some time ago who, despite all my efforts, would not bathe. Each morning when, with his white porcelain tub in my hand, I approached his cage, he would resolve himself into the sulkiest, dreariest little ball of feathers you can possibly imagine. I coaxed and pleaded; I even bribed. Bathe he would not. So consistent was he in his determination not to bathe that I named him Tramp.

One morning I broke the tub, and in its place I took a shallow blue and white dish of Japanese ware. Tramp eyed me for a moment with all his old hostility, and then as he caught sight of the pretty dish he flew down from his perch with chirps of joy and darted into the water before I could take my hand from the cage.

"I had found the way to his heart, and his morning bath now became a daily source of joy to both of us. But one fatal morning I broke the blue and white dish. In an apologetic manner I brought to Tramp once more the regulation white bath dish, hoping that his cleanly habits were by this time so ingrained that he would overlook the prosaic appearance of his tub. Not so. An angry flutter of wings, a threatening little beak, a perfect tempest of shrill cheeps and twitterings and then sulky silence on the topmost perch.

"So it went on till I secured another blue and white dish and then peace and harmony and morning baths again."—New York Commercial Advertiser.

## Doesn't Count For Much.

"Lovely wedding, wasn't it?" asked the maid of honor.

"Quite so," admitted the bride's dearest enemy.

"Every detail perfect," suggested the maid of honor.

"Oh, I don't know. We might make an exception of the groom, don't you think?"

"Oh, possibly, possibly," admitted the maid of honor, "but that's a minor detail, anyway."—Chicago Post.

## Scrofula the C use.

Eczema, catarrh, hip disease, white swelling, and even consumption have their origin in scrofulous conditions. With the slightest taint of scrofula in the blood, there is no safety. The remedy for this disease in all its forms is Hood's Sarsaparilla, which goes to the root of the trouble and expels all impurities and disease germs from the blood.

The best family cathartic is Hood's Pills.

## SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heat before the blood has been made pure and healthy and all impurities eliminated from the system. S. S. S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system A CONSTANT DRAIN UPON THE SYSTEM.

When this has been accomplished the discharge gradually ceases, and the sore of ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbot, Lock Box 245, Winona, Minn., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been perfectly well man ever since."

S. S. S. is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic.

Send for our free book and write our physicians about your case. We make no charge for this service.
